Vision:
"Become a leading Undergraduate Pharmacy Study Program nationally and internationally that produce alumni with tough competitiveness in the field of pharmacy in the year 2028."

Mission:
1. Organizing quality and competence pharmacy education in the fields of science, technology, clinical and community pharmacy.
2. Organizing quality and continuous pharmaceutical research.
3. Disseminating the research results to the community.
4. Establishing a network of productive and sustainable cooperation with national and international institutions.

Aim:
1. Producing pharmacy graduates with high integrity, virtuous, competent and professional in answering various problems in the field of pharmaceutical science/ technology, clinical/ community pharmacy and being able to compete in the era of globalization.
2. Producing research outcomes in the pharmaceutical field that contribute to science and technology.
3. Applying the result of pharmaceutical research to address community and health issues in general.
4. Establishing cooperative relationships with various stakeholders, especially in the development of science and technology and its application to obtain financial (Revenue Generating Activity) and non-financial

Graduate Learning Outcome:
1. Explain the basic knowledge of pharmaceutical sciences including basic sciences and basic biomedical sciences
2. Explain the interactions between characteristics of drug and human body systems to achieve rational therapy
3. Analyze the quality and quantity of raw materials included natural and chemical pharmaceutical ingredients in laboratory scale.
4. Identify the natural origin materials as active pharmaceutical ingredients for development of new drug.
5. Demonstrate the preparation and quality control process of pharmaceutical dosage form in laboratory scale.
6. Implement the basic principles of therapeutic communication to patient and community.
7. Apply the concept of clinical and social aspects of drug to achieve a rational therapy.
8. Apply professional pharmaceutical practice in accordance with the values and principle of divinity, morality, ethic, discipline and law.
9. Perform independent work and lifelong learning based on principles of responsibility and integrity to support intrapersonal development
10. Demonstrate teamwork both in academic and non-academic activities to develop interpersonal network
11. Construct original and valid scientific report based on current technologies
Educational Philosophy

"The Andalasian Character" that applied as UPSP educational philosophy is built on 4 elements, namely: Spiritual, Science, Charity, and Social. "The Andalasian Character" consists of 6 characters - Sabar (Patient), Empati (Empathy), Jujur (Honest), Adil (Fair), Tanggung jawab (Responsible) and Ikhas (Sincere) or abbreviated "SEJATI"

- **Patience (Sabar)** means to endure trials, not be irritable, not be discouraged, be steadfast, be in no hurry, and be calm.

- **Empathy (Empati)** means a mental state that makes a person feel or identify himself in the same state of feeling or thought as another person or group.

- **Honest (Jujur)** means being righteous, not lying, not cheating and always following the rules.

- **Fair (Adil)** means having the same attitude, not biased or impartial to the truth and always follows the rules in force.

- **Responsibility (Tanggung Jawab)** means having the attitude to dare to bear all risks due to act / everything that is done.

- **Sincere (Ikhlas)** means to have a clean heart, sincere or do something selflessly.
